

Ocean Choice Seafood Corp

Located in Los Angeles CA

Ocean Choice seafood is a top supplier of fresh seafood to the wholesale and retail industry. After growth and more reliable equipment needed, Ocean Choice purchased our VT570 tray sealer machine.

“We were in need of a replacement and needed a more reliable machine. We brought in the Promark VT570 and were up and running right away. The machine gives us more trays per cycle, and has quick cycles. This allows us to complete our work faster and saves us in our production costs. The machine has been reliable and service and parts are available which is very important to us. We would gladly recommend this machine to everyone.”
